

By using NzingaNet hosted services, you can:

Delight your employees with the freedom of using devices of their choice
Deliver workspaces on any device while preserving data security
Relieve users or IT personal of planning device or software upgrades
Ensure secure access to corporate data whenever, wherever
Provide a predictable monthly expense, avoiding large capital IT outlays

Software as a Service (SaaS)

Software as a Service (SaaS) is a software distribution model deployed by Nzinganet in which applications are hosted by us and made available to our customers over a network, typically the Internet. Benefits of the SaaS model for our customers' include:

- Easier administration
- Automatic updates and patch management
- Compatibility: All users will have the same version of software.
- Easier collaboration, for the same reason
- Global accessibility.
